Reminders and Helpful Hints for groups, parents and skaters:

- Make sure your children know their shoe size beforehand, for smaller children it helps to write their size on a name tag/sticker for staff to see. This will make the process of getting skates much quicker & smoother.
- We do not have lockers or storage containers for large groups. When groups or classes are mixed, a garbage bag to hold all your group's shoes and items is recommended.
- We do not have gloves, hats, or other warm clothing; please make sure your skater is dressed appropriately.
- Please remember to tuck the laces back into the skate when exchanging or returning skates; this will make the process go faster.
- Always skate in the direction of traffic, which is usually counter-clockwise but which may change midway through a skating session.
- Don't skate faster than you can control; if you are a new skater, skate close to the boards at the side of the rink, so you can stay out of the way of other skaters and also so you can slow or stop quickly if necessary.
- Keep an eye on the skaters ahead of you, who may not be able to see you coming.
- Never hold hands with more than one other person; creating chains of skaters may be fun, but it is dangerous to new skaters in the chain and to other people on the rink.
